

Allanson

LED Saber

Powerful linear beam produces bright, even illumination for interior and exterior sign and general lighting applications

A New Way To Illuminate Signs

Allanson's LED Saber perimeter lighting provides bright, uniform illumination over the sign face. Using less than half the material, labor and power than conventional fluorescent lighting, the LED Saber mounts easily into the perimeter of sign cabinets. **Allanson – Tomorrow's Products Today.**

- Uses less than half the power of fluorescent systems
- Produces greater surface area coverage
- Uses less power than conventional back mounted LED lighting
- Installs in less than half the time of conventional LED lighting
- Available in 1', 2', 3', 4', 5' and 6' lengths
- 24 volt dc operation
- Wet location rated – exterior mounting capability
- Meets IP-66 rating
- 30 degree and 60 degree beam spreads
- 6500°K and 4500°K CCT
- Good in -30°C to +50°C ambients, -22°F to +122°F
- Shock and vibration resistant housing
- Linear heat sink insures long emitter life
- Snap in holding brackets for easy mounting
